

# INTERLUBE IL-HFSYN46 (-54°C)

FULL SYNTHETIC HYDRAULIC FLUID

IL-HFSYN46 (-54°C)

## OVERVIEW

Interlube IL-HFSYN46 (-54°C) is a biodegradable synthetic oil specifically designed to meet the environmental requirements of mobile and stationary hydraulic systems operating in sensitive areas. Based on synthetic esters and carefully designed additives IL-HFSYN46 (-54°C) is a premium performance hydraulic oil suitable for hydraulic systems operating under severe conditions and requiring fluids with excellent thermal stability over a wide temperature range. Because of its excellent biodegradability and very low ecotoxicity, IL-HFSYN46 (-54°C) is particularly recommended anywhere leaking, spills or ruptured hydraulic lines may present an environmental hazard. Typical applications include: forestry works, construction, logging and farming equipment, public works, lawn and turf care, water navigation, off-shore, water catchments areas, ski resorts, etc...

IL-HFSYN46 (-54°C) is recommended for stationary and mobile applications using gear, vane and piston hydraulic systems operating under high pressure and temperatures ranging from -54°C to 100°C. Consult the manual of the manufacturer for the appropriate grade.

IL-HFSYN46 (-54°C) is compatible with the most conventional mineral and synthetic hydraulic fluids, however, for optimum performance, it is recommended to drain and clean the system before transition to IL-HFSYN46. Interluberecommends the use of IL-HFSYN46 (-54°C) flushing and rinsing fluid. Interlube can certify that your equipment uses a biodegradable fluid that meets the OECD 301B standard.

## FEATURES AND BENEFITS :

- Biodegradable formulation (OECD 301b  $\geq$  80%)
- Low aquatic toxicity
- Formulated from a minimum of 80% renewable resources
- Efficient operation over a wide temperature range (-54°C to 100 °C).
- Hydrolytic and thermal stability
- Resists oxidation resulting in fewer oil changes
- Exceptional wear protection
- Protects against rust and foaming
- Compatible with most seals and joints
- Easily separates from water and debris
- Keeps system clean for extended periods

## APPROVALS / CERTIFICATIONS

Interlube IL-HFSYN46 (-54°C) meets or surpasses the following specifications:

- Cincinnati Machine P-68, P-69, P-70
- U.S. Steel 127, 136 / German Steel SEB 181222
- DIN 51524 Parts 1 and 2, Type HLP
- DIN 51506, VDL
- Denison HF-0, HF-1, HF-2
- ISO 11158:1997, Family H, Type HM
- Bosch Rexroth RE 90220, Type HLP
- Eaton Vickers, I-286-S, M-2950, 35VQ25A

# INTERLUBE IL-HFSYN46 (-54°C)

FULL SYNTHETIC HYDRAULIC FLUID

IL-HFSYN46 (-54°C)

## TYPICAL PROPERTIES

INTERLUBE IL-HFSYN46 (-54°C)		Test Method	46
Code de produit			
ISO Grade			46
Viscosity @ 40 (°C) cS	ASTM D445		44.2
Viscosity @ 100 (°C) cS	ASTM D445		8.51
Viscosity Index (VI)	D2270		173
Pour Point °F (°C)	D97		-54°C
Flash Point °F (°C)	D92		220
Density (g/ml)	DIN 51354		0.907
Colour	LIGHT YELLOW	LIGHT YELLOW	
OECD 301B (28 Days) % Biodegradation	ASTM D665		80

The values quoted above are typical values for normal production. They do not constitute a norm.
